Levels of Difficulty

To allow you a better understanding of what may be encountered on your Adventure Trip, we have developed a grading system that quantifies the technical nature and physical output level of each trip. When you are registering for a trip, it helps to be aware of the physical difficulty level so you're not caught unprepared!

Our scale starts at one hiker which means low to moderate exertion. Participants should be capable of moving or hiking for several hours at a stretch with short stops every hour. Participants should be in good health!

Our scale ends at four hikers to which only the highly experienced outdoor enthusiast should register. Good health and hiking or backpacking experience is required. These trips may contain 6-8 hours of walking per day and often involves carrying your own gear. Participants must be able to carry up to a 30 lb pack for up to 5 miles throughout the duration of the hike, while maintaining the pace of the group.

Please read each trip description carefully and email us (mgrodman@csfd16.org) if you have questions before you register. We can help match your child with the correct trip for his/her level.

You do not need to be a professional athlete to take part in an adventure, but you do need to be an active person. A keen desire to learn, have fun, strong motivation, and a positive attitude are equally important to success!

Gear Notes:

This is some of the basic gear students will need for our Adventure Trips! We will email you prior to departure with specific pack lists for each trip.

DAYPACK to hold lunch, snacks, water, & sunscreen.

DUFFLE BAG if you are going on a trip with an overnight.

TWO (2) WATER BOTTLES that hold at least 1-liter of water each.

HIKING SHOES or BOOTS that have good tread.

Week 5: June 24 - 29

Somewhere in desert country, the inhabitants of West Sandy Bottoms are preparing for the highlight of their year – the annual race between the Mammals and the Reptiles. A company of strolling actors attempts to tell the tale in classical fashion. Philoh Ferret reminds the racing fans that his service station is for “mammals only.” The Hare’s weasely managers brag about their racing star as the various reptiles assemble to choose their candidate. Fan clubs are preparing their cheers as the big day draws near. As we see the race through the eyes of a TV news team covering the event, we soon discover that there is more than a sporting rivalry between the brown animals and the green animals. There’s a real animosity between these creatures. As the race proceeds, a tiny bunny is lost in the wilds of Tornado Gulch and, almost miraculously, the mammals and reptiles join in the search...together. The wisdom of the old tortoise and the lesson learned by the cocky hare remind us all that it’s easy to get along, if you just try. In the end, the animals realize the folly of their ways and live happily together in their sandy home.

Registration is first-come, first-served, and every registered student will have a part in the play. Auditions for roles will take place on Monday. **Every student must attend the audition. A complete schedule of rehearsals will be distributed after the audition. Your role will determine which rehearsal sessions you will attend.** All rehearsal sessions are mandatory. A dress rehearsal and two public performances will conclude the week. All students must attend the dress rehearsal and both performances.
